Once in a great while, a landowner gets pleasantly surprised when they enter into a contract to sell their crops, livestock or natural resources, such as their timber. I'm glad to say I am very pleased with my recent timber sale you handled.

Many landowners, like myself, have little knowledge about timber and its market value. Therefore, it's difficult for most of us to decide on how to sell our timber or which timber company we should deal with. When you and I met to discuss the sale of my timber, I had several concerns. Obviously, I wanted the best price possible, but I was also concerned about the harvesting process and what condition my land would be left in after the timber was cut. You addressed all my concerns in a direct professional manner that made my decision a simple one.

After you explained the marketing process to me in a clear detailed fashion, I decided for you to cut my timber on the halves as opposed to you offering me an up front lump sum price, and I am was very happy with that decision. I received a better price than I expected, you completed the job in a timely fashion in spite of rough winter weather conditions, you minimized the damage to my land in the harvesting process and repaired all the skidder trails before leaving the farm.

Needless to say, I am very pleased with your services and will definitely recommend Wade Norris Logging to anyone who wants to sell their timber. I truly appreciate your professionalism and honesty in our business dealings.

After being in business for over thirty years and dealing with the general public as well as all types of contractors and vendors, it is really refreshing to do business with an honest professional like yourself. Thank you again and when I have more timber to cut, I'll give you a call. And by the way Wade, if any of your prospective customers would like to talk to me regarding your services, I welcome their call or email; my contact information is listed above.

Best personal regards,
